Powergen –
Leamington Spa

British Gas HQ – Solihull

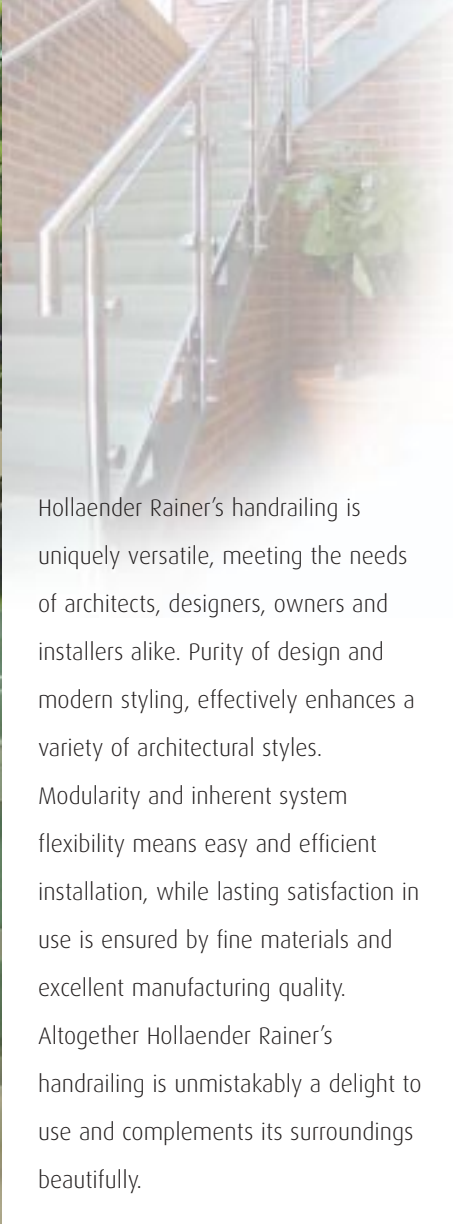

Canada Water Station – London Underground Ltd.

Holiday Inn Express
- Droitwich

Magistrates Courts - Wolverhampton

Hollaender Rainer's handrailing is uniquely versatile, meeting the needs of architects, designers, owners and installers alike. Purity of design and modern styling, effectively enhances a variety of architectural styles. Modularity and inherent system flexibility means easy and efficient installation, while lasting satisfaction in use is ensured by fine materials and excellent manufacturing quality. Altogether Hollaender Rainer's handrailing is unmistakably a delight to use and complements its surroundings beautifully.

Waterworld - Stoke

Designed to compliment surrounding architectural features

Powergen - Nottingham

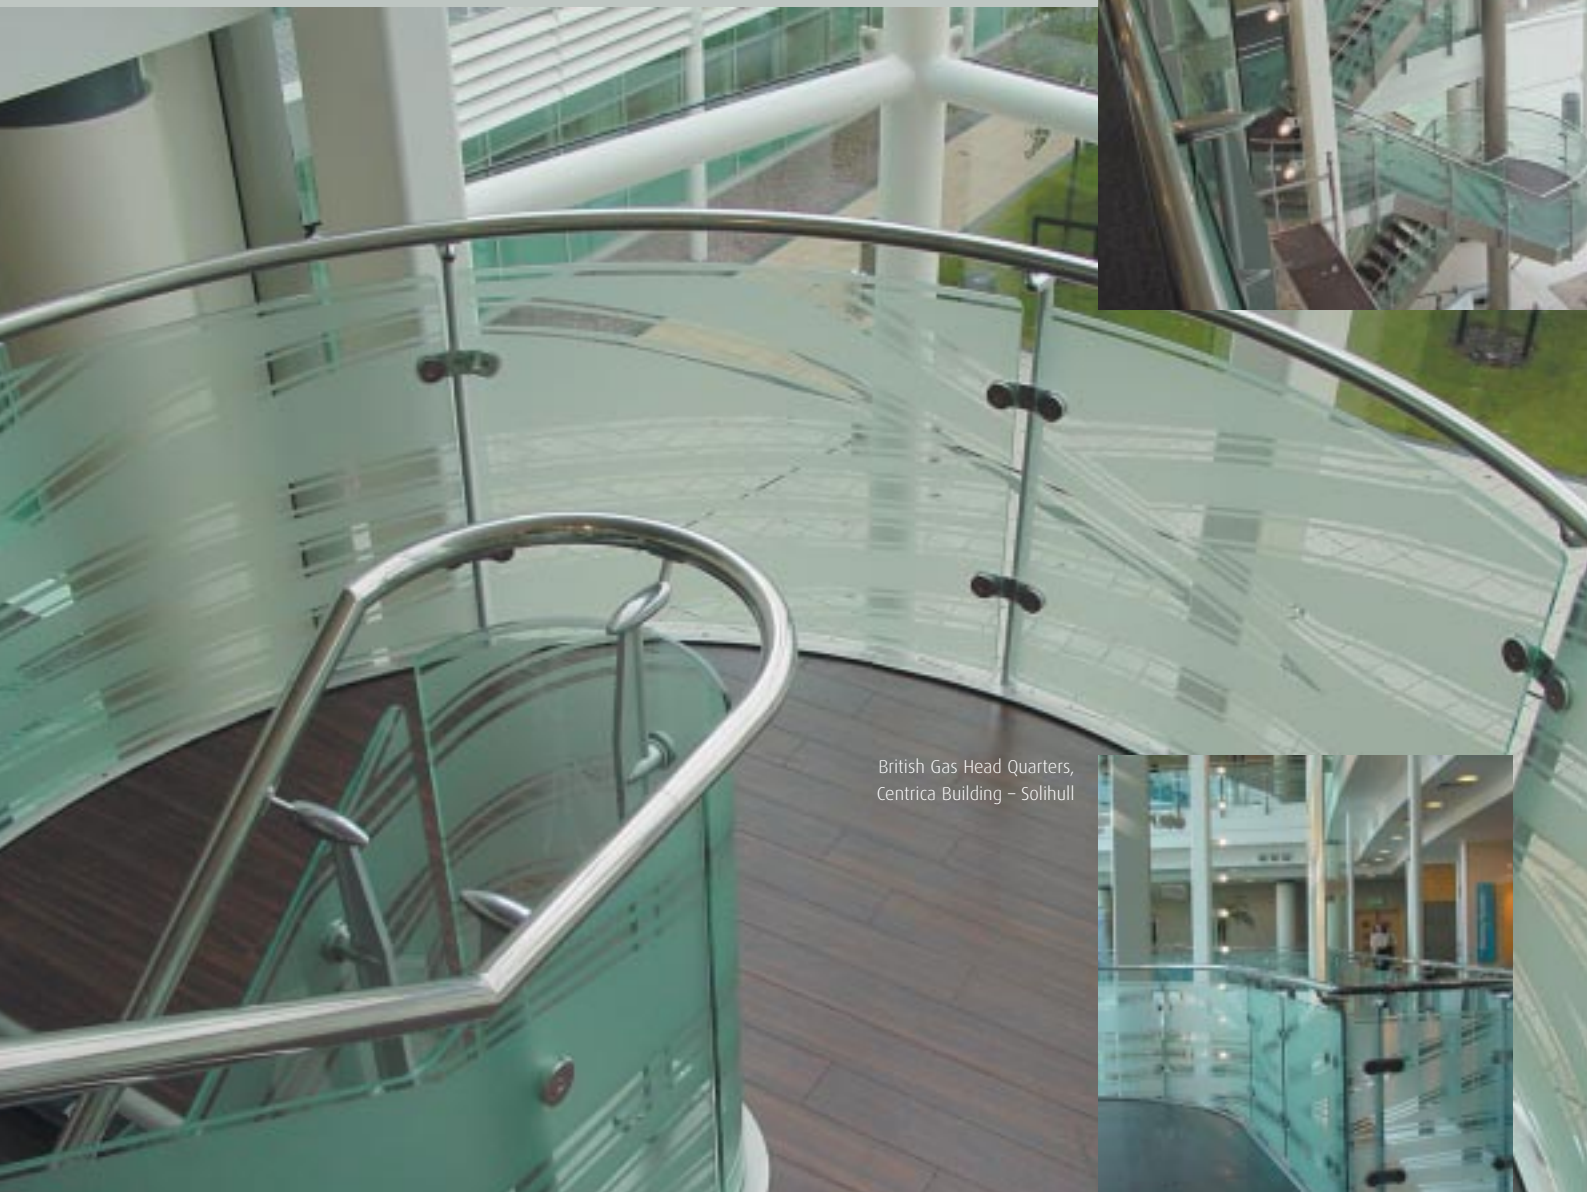

G-Mex Centre - Manchester

Revolutionary concepts in architectural handrail systems

Belina - designed and manufactured with over thirty years' experience of the manufacture of handrails in a broad range of styles and materials. Our proven philosophy of elegant, minimalist design, offering excellent functionality with speedy on-site installation is perfectly realised in the Belina modular system.

Stylish Belina, with just a hint of "retro", makes an ideal complement to a wide range of interiors - corporate offices, hotels, shopping malls, theatres and high-quality public buildings.

British Gas Head Quarters,
Centrica Building – Solihull

Volvo – Warwick

Volvo – Warwick

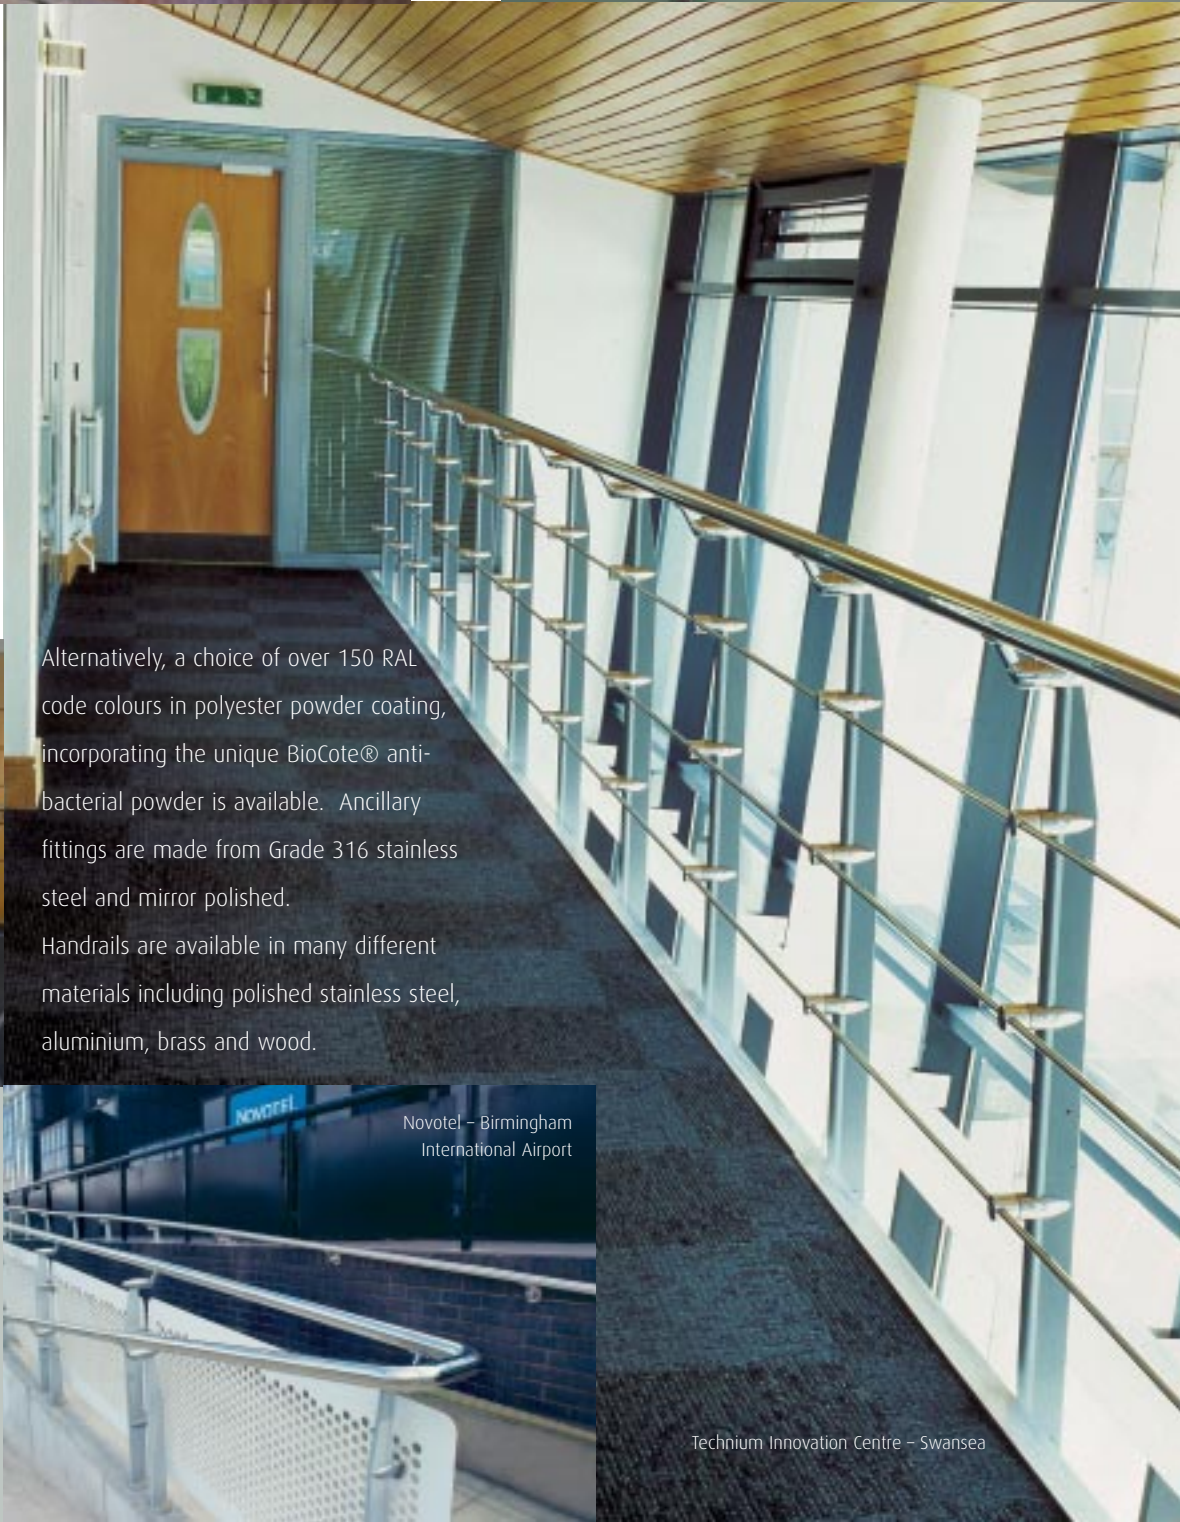

Superior Finish

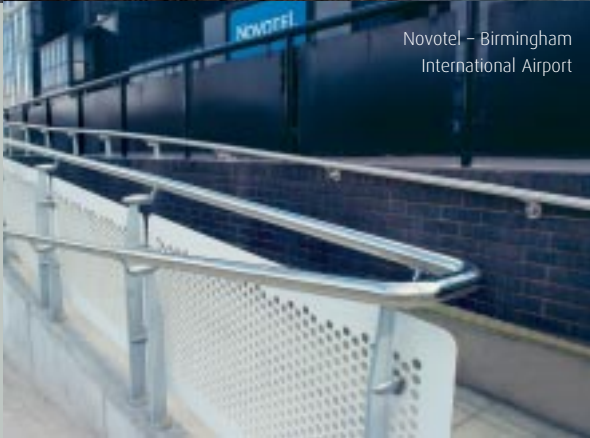

The uniquely profiled Belina posts are manufactured from high grade aluminium extrusions, and fittings cast in high-purity, high magnesium content alloys finished and mirror-polished to the highest standards.

Grant Thornton – Birmingham

Alternatively, a choice of over 150 RAL code colours in polyester powder coating, incorporating the unique BioCote® anti-bacterial powder is available. Ancillary fittings are made from Grade 316 stainless steel and mirror polished. Handrails are available in many different materials including polished stainless steel, aluminium, brass and wood.

Novotel – Birmingham International Airport

Innovative product solutions – tailored to your exact needs

Technium Innovation Centre – Swansea

RNLI –
Lytham St. Anne

Hollaender Rainer supplies component handrail systems under the brand names of Speed Klamp®, Off-set®, In-line®, Easy-fix® and Belina®. Having completed projects for a wide variety of different applications Hollaender Rainer has proven to be a versatile solution to all handrailing problems. Examples of work include wine bars, retail outlets, offices, disabled access, bridge parapets, queuing systems, roof edge protection, coastal protection and water treatment plants.

Road Bridge – Newbury

Technium Centre – Swansea

The Vineyards – Great Baddow

Holiday Inn Express – Droitwich

The Hub Church Hall – Birmingham

Whether the design question is one of aesthetics or pure functionality the extensive range of components and finishes offers complete freedom of design, with the versatility to overcome any site problems.
